

Advance Diploma in Gardening

The duration of a diploma in Horticulture is from one year to two years. Horticulture Diploma is all about plant cultivation and the management of plants. Horticulture is a specific branch of plantation in which the students study the methodologies and techniques involved in the cultivation of plants, flowers, and crops. The Horticulture field can be divided into three categories: Pomology, ornamental horticulture, and Olericulture. The candidates pursuing the diploma in Horticulture make their career in the fields of home gardening, arboriculture, urban gardening, and floriculture.
