## Diploma in Occupational Safety, Health And Environment Management

### Description

The Diploma in Occupational Safety, Health, and Environmental Management (DOSHEM) is an indigenously developed and the Government of India approved workplace safety and health programme offered only at Green World Group centres. The course addresses various security concerns of workers associated with industrial sector. The course materials, training methodologies and curriculum are made as per international standards but can be followed and understood by workers from across countries belonging to different work environments. ADOSHEM understands that every worker is entitled to work in safe and healthy work environment, but at the same time, it is the duty of every employee to ensure that their action doesn't create disruption or health hazards to the rest of the workforce.

### Course Content

1. International management of health and safety
2. International control of hazardous agents in the workplace
3. Safety Management and Communication
4. Environmental Planning and Management
5. Environmental Technology for Sustainable
6. Environmental Technology and Engineering
